

CCMT 2016

Shanghai-edition of CIMT

– the original machine tool fair in even years!

fairs
around the
world

Key data

Premier event:	in 2000
Dates:	11 – 15 April 2016
Frequency:	bi-annual
Type of event:	Trade fair
Venue:	SNIEC – Shanghai New Int'l Expo Centre

General Information

The **CCMT** has been successfully held for six sessions **since 2000** first in **Beijing**, then in **Shanghai, 2010** and **2012** in **Nanjing** in even years. Organized by **CMTBA** – the China Machine Tool and Tool Builders' Association – **CCMT** became one of China's biggest machine tool and metal-working exhibitions - in fact with the move back 2014 it's now the **Shanghai-edition of CIMT**, the leading machine tool technology show in Asia!

The **9th CCMT in 2016** will be staged again at the Shanghai New International Expo Centre – **SNIEC** in Pudong. This time with more space in regular halls: 10 halls (E3 – E7 + N1 – N5) with a total gross-space of some **120.000 m²** (from 2018 onwards most probably the whole SNIEC-space will be available for CCMT (almost 177.000 m²).

With the successful re-start in Shanghai 2014, **CCMT** impressively showed it's good reputation throughout China and Far East: Although not perfectly timed with a date end of February, it attracted out of the cuff **910 exhibitors** and **143.039 visits**.

Lot of long time international partners of the organizer **CMTBA** will support from 2016 onwards not only CIMT, but also **CCMT** as the **leading machine tool event in even years in China**. No one else in China and throughout the Far East region is able to reach such a number of highly qualified visitors. As officially appointed agent for **Germany** and **German-based exhibitors** at CIMT and CCMT, **IMAG** will be glad to support your marketing activities in China accordingly!

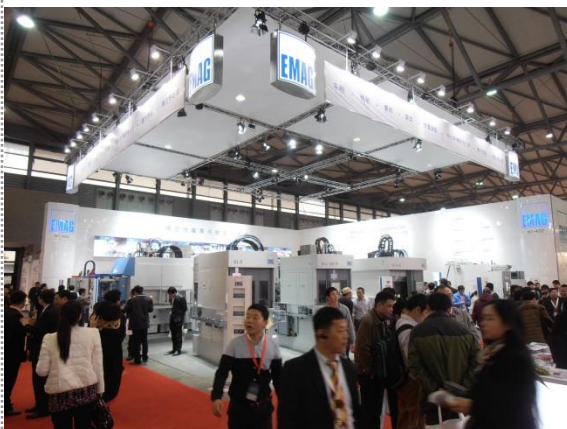

Review CCMT 2014

Visitor target groups

- machinery and plant manufacturers industry
- automotive suppliers and other industrial applications
- Other heavy and light industries in Southern and Eastern China
- Beside the management, visitors like technicians, engineers, product-managers and -designers will be on focus...

Product range

- Metal cutting machines
- Metal forming machinery
- Fabrication equipment
- Non-traditional processing machinery
- Industrial robots
- Material handling equipment
- FMC
- FMS
- Cutting Tools
- Accessories
- Measuring and testing devices
- Abrasive and its products
- Foundry machinery
- Heat treatment equipment
- Welding equipment
- Other related manufacturing technologies and equipment
